

Protection and Hygiene Measures at the Sternbusch Pool

Dear Pool Users,

Due to the current coronavirus pandemic, this year's swimming summer may be different than usual. Wherever many people come together, special rules of conduct apply – and this of course also applies in our Sternbusch Pool.

It is more important than ever to show consideration for each other. Your and our health and safety are our highest priority! We have prepared ourselves for the current situation with a comprehensive protection and hygiene plan to make swimming and relaxing as pleasant as possible for you.

There are some things to be aware of: our plan for the operation of the swimming pool was created according to the specifications of the state of NRW. We ask that you please adapt to the new situation and hope for your understanding and solidarity.

Here is an overview of the most important rules of conduct:

- The following applies: Keep a distance of 1.5 m!
- Mandatory: nose and mouth mask
- Wash and disinfect hands regularly
- Follow the instructions of pool staff
- Observe signs in the pool

The infographic is divided into two main sections. The left section has a green background and is titled 'Information für unsere Badegäste'. It features two illustrations: a man in blue shorts and a woman in a yellow swimsuit. Between them, the text reads '1,5 M < ABSTAND > HALTEN!' and 'Vermeiden Sie auf dem Beckenumgang enge Begegnungen und nutzen Sie die gesamte Breite (in der Regel 2,50 m) zum Ausweichen.' Blue and yellow arrows point away from each other. The right section has a blue background and is titled 'HÄNDE DESINFIZIEREN'. It shows a hand being sprayed with disinfectant. Below this, it says 'Vergessen Sie bitte nicht regelmäßig die Hände zu desinfizieren.' Further down, it says '1,5 M < ABSTAND > HALTEN!' and 'Halten Sie am Beckenrand Abstand zu anderen Badegästen.' with illustrations of a man and a woman. The logo 'STERN BUSCH BAD' is in the bottom right corner.

Please also observe our [house rules and bathing regulations](#), including updates.
